README DATA FILE:

Data sets used for estimation and for tables:

I. fin2a7v11c.raw: raw data file used in estimating the model (input in FORTRAN programs)
fin2a7v11c.dta: corresponding stata data file used to create tables in paper

II. wagereg11a.dta: fin2a7v11a + additional variables, used to create tables in paper
wagereg11a.log: provides variable definitions for all data sets

III. fin2a7v13c.raw: same as fin2a7v11c + households in treatment villages in 1998.
fin2a7v13c.dta: corresponding stata data file

All of the above data sets have missing value codes of -9 or -9999.

Original data sets with documentation:

Go to **www.oportunidades.gob.mx** which is the general Oportunidades web page and register. Click the link which says "Evaluacin Externa" which leads to the web page that contains the data bases, technical notes and documents.
