

Structural change out of Agriculture: Labor Push versus Labor Pull: Notes on data

Francisco Alvarez-Cuadrado and Markus Poschke*

November 15, 2010

The data we use are contained in the accompanying file `pushpull_data.dta`. The file is in Stata format. The same data is also provided in the tab-separated text file `pushpull_data.txt`.

The Stata `.do` file `pushpull.do` contains the code for generating the Figures and Tables in the paper. For completeness, it also contains code for generating some derived variables which are also included in the data files.
