Robust standard errors in brackets clustered at the state-level																

Key

Figure VI, Panel A:

- Column 1 Baseline specification includes year, region-by-year (Northeast omitted), physician exceptions-by-year, and sales bans-by-year fixed effects.
- Column 2 Adds information/advertising bans by year fixed effects to specification in column 1.
- Column 3 Adds covariates to specification in column 2.

Figure VI, Panel B:

- Column 4 Same as column 1 but includes state fixed effects.
- Column 5 Same as column 2 but includes state fixed effects.
- Column 6 Same as column 3 but includes state fixed effects.

Figure VI, Panel C:

- Column 7 Same as column 6 but omits the NE census region
- Column 8 Same as column 6 but omits the MW census region
- Column 9 Same as column 6 but omits the S census region
- Column 10 Same as column 6 but omits the W census region

Figure VI, Panel D:

- Column 11 Same as column 6 but includes only the 15 to 19 year olds.
- Column 12 Same as column 6 but includes only the 20 to 24 year olds.
- Column 13 Same as column 6 but includes only the 25 to 29 year olds.
- Column 14 Same as column 6 but includes only the 30 to 34 year olds.
- Column 15 Same as column 6 but includes only the 35 to 39 year olds.
- Column 16 Same as column 6 but includes only the 40 to 44 year olds.

These estimates are not presented in the paper but provide additional sensitivity checks. See specification key on following page.

Key

Figure VI, Panel A sensitivity checks: States repealing Comstock sales bans before 1965 omitted

- Column 1 Baseline specification includes year, region-by-year (Northeast omitted), physician exceptions-by-year, and sales bans-by-year fixed effects.
- Column 2 Adds information/advertising bans by year fixed effects to specification in column 1.
- Column 3 Adds covariates to specification in column 2.

Figure VI, Panel A sensitivity checks: States repealing Comstock sales bans before 1965 interacted with year dummy variables

- Column 4 Baseline specification includes year, region-by-year (Northeast omitted), physician exceptions-by-year, and sales bans-by-year fixed effects.
- Column 5 Adds information/advertising bans by year fixed effects to specification in column 1.
- Column 6 Adds covariates to specification in column 2.

Figure VI, Panel B sensitivity checks: States repealing Comstock sales bans before 1965 interacted with year dummy variables

- Column 7 Same as column 4 with state fixed effects
- Column 8 Same as column 5 with state fixed effects
- Column 9 Same as column 6 with state fixed effects

These estimates correspond to the panels of online appendix figure VI, but code "legitimate business" statutes as physician exceptions (see legal appendix for more information).
See specification key on the following page.

Robust standard errors in brackets clustered at the state-level																

Key

Figure VI, Panel A:

- Column 1 Baseline specification includes year, region-by-year (Northeast omitted), physician exceptions-by-year, and sales bans-by-year fixed effects.
- Column 2 Adds information/advertising bans by year fixed effects to specification in column 1.
- Column 3 Adds covariates to specification in column 2.

Figure VI, Panel B:

- Column 4 Same as column 1 but includes state fixed effects.
- Column 5 Same as column 2 but includes state fixed effects.
- Column 6 Same as column 3 but includes state fixed effects.

Figure VI, Panel C:

- Column 7 Same as column 6 but omits the NE census region
- Column 8 Same as column 6 but omits the MW census region
- Column 9 Same as column 6 but omits the S census region
- Column 10 Same as column 6 but omits the W census region

Figure VI, Panel D:

- Column 11 Same as column 6 but includes only the 15 to 19 year olds.
- Column 12 Same as column 6 but includes only the 20 to 24 year olds.
- Column 13 Same as column 6 but includes only the 25 to 29 year olds.
- Column 14 Same as column 6 but includes only the 30 to 34 year olds.
- Column 15 Same as column 6 but includes only the 35 to 39 year olds.
- Column 16 Same as column 6 but includes only the 40 to 44 year olds.

These estimates are not presented in the paper. They provide additional sensitivity checks for the specifications in online appendix figure VI, which code "legitimate business" statutes as physician exceptions (see legal appendix for more information). See specification key on the following page.

Key

Online Appendix Figure VI, Panel A sensitivity checks: States repealing Comstock sales bans before 1965 omitted

- Column 1 Baseline specification includes year, region-by-year (Northeast omitted), physician exceptions-by-year, and sales bans-by-year fixed effects.
- Column 2 Adds information/advertising bans by year fixed effects to specification in column 1.
- Column 3 Adds covariates to specification in column 2.

Online Appendix Figure VI, Panel A sensitivity checks: States repealing Comstock sales bans before 1965 interacted with year dummy variables

- Column 4 Baseline specification includes year, region-by-year (Northeast omitted), physician exceptions-by-year, and sales bans-by-year fixed effects.
- Column 5 Adds information/advertising bans by year fixed effects to specification in column 1.
- Column 6 Adds covariates to specification in column 2.

Online Appendix Figure VI, Panel B sensitivity checks: States repealing Comstock sales bans before 1965 interacted with year dummy variables

- Column 7 Same as column 4 with state fixed effects
- Column 8 Same as column 5 with state fixed effects
- Column 9 Same as column 6 with state fixed effects
