

American Economic Review Submission: Disclosure Statement

The research for this paper was funded by the Australian Research Council's Discovery Project Funding Scheme (DP 1094021). This funding source played no role whatsoever in the conduct of the research, preparation of the paper and decision to submit the paper for publication. No other source of funding or financial assistance was involved in the production of this paper.

There is no actual or potential conflict of interest that could inappropriately influence, or be perceived to influence, the authors' work on this paper.

No human or animal experiments were involved in producing this paper.

The authors contributed equally in the development of the ideas for this paper, and the work on the research for and preparation of the paper was also shared equally.

All three authors approve the final submitted version of this paper.

A handwritten signature in black ink, appearing to read 'R. Rees'.
