

## **Disclosure Statement for Dallas Burtraw**

Date: January 8, 2014

I acknowledge support for this research from the Mistra Foundation's INDIGO program, which was received through my employer Resources for the Future.

In the past three years, I have received other funding that contributed to the development of these ideas and the model we used. This funding also came through Resources for the Future. This funding came from the Bechtel Foundation, and funding for related projects from the U.S. Department of Energy through the National Renewable Energy Laboratories, and the U.S. Environmental Protection Agency.

Through Resources for the Future, in the past three years I have also received funding for research that was unrelated to the submitted article. This funding has come from the U.S. Geological Survey, the BigCCS Centre, formed under the Norwegian research program Centres for Environment-friendly Energy Research (FME), with contributions from the following partners: Aker Solutions, ConocoPhillips, Det Norske Veritas AS, Gassco AS, Hydro Aluminium AS, Shell Technology AS, Statkraft Development AS, Statoil Petroleum AS, TOTAL E&P Norge AS, GDF SUEZ E&P Norge AS, and the Research Council of Norway (193816/S60). In addition I have received funding for research not related to the submitted article from the FORMAS project–Human Cooperation to Manage Natural Resources, the Energy Foundation, the Merck Family Fund, the Bipartisan Policy Center, the Smith-Richardson Foundation, the Electric Power Research Institute, the Next 10 Foundation, Mistra's CLIPORE Project, the Doris Duke Conservation Fund, Renewables 21 and Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ).

Aside from Resources for the Future, I have received funding for work that is not related to this article while serving as a consultant to the World Bank the U.S. Environmental Protection Agency.

IRB approval was not obtained or sought for this project. There was no human subject research.
