

Disclosure Statement

Economic Understanding in U.S. High School Courses

For William B. Walstad

I have nothing to disclose about relevant interest from other parties about this study other than I received partial financial support to conduct the study from the Calvin K. Kazanjian Foundation. IRB approval was not sought for this study because I used only a secondary and restricted-used dataset [National Assessment of Educational Progress (NAEP) in economics for grade 12] that was prepared by the National Center for Education Statistics (NCES) at the U.S. Department of Education. NCES has Federal policies and regulations for users of restricted-use datasets that require approval of a site license application to use the dataset. An NCES security officer also reviewed the paper and approved the public dissemination of any data numbers from the dataset used for the paper.
