General Information

PROGRAM SCHEDULES
A listing of sessions where papers will be presented and another covering activities such as business meetings and receptions are provided in this program. Admittance is limited to those wearing badges. Each listing is arranged chronologically by date and time of the activity; the hotel and room location for each session and function are indicated.

CONVENTION FACILITIES
Twenty hotels are being used for all housing. Sessions and other convention functions are in the Manchester Grand Hyatt San Diego and the San Diego Marriott Marquis and Marina. A map of San Diego indicating the locations of the hotels, an alphabetical listing of function rooms within the hotels, and hotel floor plans are in the next section of this book.

Headquarters hotel is the Manchester Grand Hyatt San Diego and the Co-headquarters is the San Diego Marriott Marquis and Marina. Central convention facilities such as registration, exhibits and message and information are located in the Manchester Grand Hyatt San Diego. Details follow. The $25 per night premium for the headquarters hotel is rebated to ASSA to help cover the cost of the meetings.

REGISTRATION
Everyone must register including speakers and discussants. Identification badges are required for admission to all sessions and activities. On-site and Pre-registrants may pick up their registration packets at the Manchester Grand Hyatt, Douglas Pavilion D, Ground Level. On-site registration fee is $125. Full time student registration fee is $55. Pre-registration and On-site registration booths are open as follows:

- Thursday, January 3  2:00 PM to 9:00 PM*
- Friday, January 4  7:45 AM to 5:00 PM*
- Saturday, January 5  8:00 AM to 5:00 PM*
- Sunday, January 6  8:00 AM to 1:00 PM (Show Office II, Second Level)

*On-site registration line closes fifteen minutes prior to closing each day.

SPUSES
There is no spouse program. Spouses wishing to attend any of the meetings may register for $55. If your spouse needs an affiliation on his/her badge, he/she must register separately and pay the full fee.

PROFESSIONAL PLACEMENT SERVICE
Interview tables are located in the Marriott Marquis and Marina, Marriott Hall, North Tower, Lobby Level. Hours are four full days, from 8:00 am to 5:00 pm. Everyone admitted to the interviewing tables (including interviewers) must register. There
is no on-site placement registration nor will there be an on-site message exchange center. All correspondence should take place using email, including interview scheduling, prior to your arrival in San Diego. However, on-site contact can be conducted by using the ASSA on-line hotel directory available at www.vanderbilt.edu/AEA and click on Annual Meeting. You may also check with the Disclosure Code Booth at the Manchester Grand Hyatt San Diego, Douglas Pavilion D, or San Diego Marriott Marquis & Marina, Marriott Hall, North Tower, Lobby Level. ASSA does not provide computers on-site. The Professional Placement Service is conducted and sponsored free of charge through the efforts of the California Department of Employment Security and AEA.

The Journal of Economic Perspectives (JEP) fills a gap between the general interest press and most academic economics journals. It offers policymakers, educators, students, and economic practitioners well-written and well-chosen analytical essays that focus the lens of economic reasoning on topics of general interest. It draws attention to new and important topics in a timely manner; informs and shapes the debate on public policy; and addresses matters relating to the economics profession. This journal exposes the power, utility, and beauty of clear economic insight.

The Journal of Human Resources
ISSN: 0022-166X, e-ISSN: 1548-8004, 4/yr
One of the leading journals in empirical micro-economics, The Journal of Human Resources is intended for scholars, policy makers, and practitioners. Each issue examines research in a variety of fields including labor economics, development economics, health economics, and the economics of education, discrimination, and retirement. The JHR features articles that make scientific contributions in research relevant to public policy practitioners. Founded in 1965.

Land Economics
ISSN: 0023-7639, e-ISSN: 1543-8325, 4/yr
Established in 1925 by the renowned economist and founder of the American Economic Association, Richard T. Ely, Land Economics has consistently published innovative, conceptual, and empirical research of direct relevance to economists. Each issue brings the latest results in international applied research on such topics as transportation, energy, urban and rural land use, housing, environmental quality, public utilities, and natural resources.

Oxford Handbooks Online brings together the world’s leading scholars to discuss research and the latest thinking in a range of major topics. The handbooks offer both thorough introductions to topics in the discipline, and a useful reference resource. Relaunching this fall, Oxford Handbooks Online will enable articles to publish immediately upon passing peer review, ensuring the most current, authoritative coverage anywhere.

The program will additionally expand to include exclusive, online-only articles covering niche, emerging topics as commissioned by an Editor in Chief and an Editorial Board of subject experts. Introductory and yet sophisticated, Oxford Handbooks Online offers timely and scholarly review articles from across the field, including modules in both Business & Management and Economics.

The Economics of Public Health Care Reform in Advanced and Emerging Economies
Health care reform will present fiscal policy challenges in both advanced and emerging economies in coming years. This book provides insights into these challenges, potential policy responses, cross-country analysis, and case studies.

Fiscal Policy to Mitigate Climate Change: A Guide for Policymakers
This volume provides practical guidelines for the design of fiscal policies to reduce greenhouse gases. The chapters, written by leading experts, explain the case for fiscal policies over other approaches; how these policies can be implemented; the most promising fiscal instruments for climate finance; and lessons to be drawn from prior policy experience.

How Emerging Europe Came Through the 2008/09 Crisis: An Account by the Staff of the IMF’s European Department
This book recounts the crisis—its origins and precrisis policy setting; the crisis triggers and scramble by governments and the international community to avoid meltdowns; stabilization and the subsequent recovery; and the remaining challenges. It distills lessons for the future from the diversity of the country experiences within the region.

• In economics you don’t learn correct economic policy; what you learn is a method for thinking about economic policy.

• Your professor will likely have a different take on some or all aspects of the issues presented. This is as it should be.

• Unemployment involves moral judgments and philosophical issues that go far beyond economics.

• In no way am I claiming that the traditional economic answer based on pure self-interest is always the correct one. But I am arguing that ..[it] ..is a useful approach that will give you more insight into what’s going on than many other approaches.

• “I’d give you an example of a real-world Pareto optimal policy if I could, but unfortunately I don’t know of any.

• So if you have a problem swallowing some of the ideas, and you believe that there’s more to the issue than is presented here, rest assured; generally you’re right.

• [Elasticity] becomes a bit less forbidding if you remember that elasticity is what your shorts lose when they’ve been through the washer and drier too many times.”

• Even though economists attempt to be as objective as possible, value judgments still creep into their analysis.

• Students should be aware of the diversity in economics and know that the mainstream view is not the only view.

• Any mechanistic interpretation of an aggregate model is doomed to fail.

• I’m not your usual introductory textbook author. I jump in where only fools tread, and I bring my readers with me.

**Should it? Colander’s 9th edition, the book with attitude, does.**

Take a look at a copy at the McGraw-Hill booth 305-307 or contact your local McGraw-Hill representative.
Bored to death at yet another interview?

Are you hiring people who are going to teach Principles of Economics? Instead of just asking “Tell us about your dissertation,” ask questions that relate to teaching. Questions like . . .

• How would you explain to a class why current economic policy isn’t pulling the economy out of the doldrums?

• How would you integrate Card and Krueger’s findings into a principle’s level discussion of the minimum wage debate?

• How is QE3 different from operation twist?

• What did Keynes mean when he wrote to Hayek, “morally and philosophically I find myself in agreement with virtually the whole of [The Road to Serfdom] and not only in agreement with it, but in deeply moved agreement.”

• What is likely to happen with the euro, and what policies would you suggest to deal with the European financial problems?

• Do you favor using a Marshallian or a Walrasian approach to teaching micro?

• How would you explain to students Michael Sandel’s views on the limits of markets as explained in What Money Can’t Buy?

• How would you integrate Thaler and Sunstein’s concept of nudges into the micro principles course?

• How does Adam Smith’s Theory of Moral Sentiments change the interpretation of the Wealth of Nations?

• If the money supply has expanded so much recently, why hasn’t there been any inflation?

• How should Coase’s Theorem be integrated into the standard policy model?

• Should we teach the multiplier model, the AS/AD model, or both?

• Can markets fail if there are no externalities?

• What is your view of Reinhart and Rogoff’s argument of the limits of government debt?

Being a good economics teacher involves much more than just being a good researcher or knowing the models. A good teacher questions what he or she is learning, reads outside the classroom, and relates the abstract models she or he learns to the real world. Too often the initial interview doesn’t select for these qualities in a candidate. It should. Make the interview more interesting—along with the standard questions, ask a few “outside the box” questions.

If you believe that teaching principles of economics involves more than a mechanistic understanding of models, take a look at Colander’s 9th edition— the book with attitude. An examination copy is available at the McGraw-Hill booth 305-307, or contact your local McGraw-Hill representative.

Journal of Human Capital
The Journal of Human Capital is dedicated to human capital and its expanding economic and social roles in the contemporary knowledge economy. This important journal aims to explore the role human capital plays in the production, allocation, and distribution of economic resources and in supporting long-term economic growth and development. The JHC is designed to bring together theoretical and empirical work on human capital—broadly defined to include education, skill, health, entrepreneurship, and intellectual and social capital—and related public policy issues. Quarterly. ISSN: 1932-8575.

Journal of Political Economy
One of the oldest and most prestigious journals in economics, the Journal of Political Economy has presented significant research and scholarship in economic theory and practice since 1892. JPE publishes analytical, interpretive, and empirical studies in traditional areas—monetary theory, fiscal policy, labor economics, development, micro- and macroeconomic theory, international trade and finance, industrial organization, and social economics. Six issues per year. ISSN: 0022-3808.

Economic Development and Cultural Change
A multidisciplinary journal of development economics, Economic Development and Cultural Change publishes studies using modern theoretical and empirical approaches that examine both determinants and effects of various dimensions of economic development and cultural change. EDCC is a valuable resource for economists and social science researchers focusing on developing countries. Quarterly. ISSN: 0013-0079.

Journal of Labor Economics
The first journal devoted specifically to labor economics, the Journal of Labor Economics has presented international research on issues affecting the economy as well as social and private behavior since 1983. JOLE’s contributors investigate various aspects of labor economics, including supply and demand of labor services, personnel economics, distribution of income, unions and collective bargaining, applied and policy issues in labor economics, and labor markets and demographics. JOLE is the official journal of the Society of Labor Economists. Quarterly. ISSN: 0734-306X.

Principles of Economics
DIRK MATEER, Penn State University
LEE COPPOCK, University of Virginia

“The writing style is great: clear, concise and easy to understand even for a freshman. I also like a lot how important concepts are explained step-by-step using very simple examples. Normally, I have to break down the textbook material for my students, helping to separate important and essential from not so important. I feel like the Mateer/Coppock textbook does it from the very beginning.”
—Liliana Stern, Auburn University

“The authors understand and explicitly address many of the subtle details that students often get hung up on. Much more seems to be spelled out for students.”
—Todd Knoop, Cornell College

“I don’t want to say the chapters are harder or easier than other books—they are just better. They will be understandable to students from all majors, in my opinion. As aforementioned, these chapters are exceptionally well done!”
—Erwin Erhardt, University of Cincinnati

“The examples were topical and the explanations really did build up the material step by step. It is an innovation because most texts just decide to keep the material simpler and use older examples that most students see only as quaint.”
—Thomas Scheiding, Cardinal Stritch University

Global Perspectives

Economic history has gone global. The history of international trade, finance, migration, and long run development attracts ever more attention. The global perspective is also transforming the study of individual countries. International comparisons provide a yard stick for gauging what is unique and important in a nation’s history. What role have internal factors like culture and institutions played in explaining differential development and how does their importance compare to the imperatives and opportunities presented by the international economy? What role has economic policy played in shaping the international economic order and in helping countries meet the challenges it presents? Can a country’s economic history any longer be written from a purely national point of view or is a global perspective essential?

The Program Committee (Stephen Broadberry, London School of Economics (chair), together with Chris Meissner, Peter Coclanis, and Carol Shiue) welcomes submissions on all subjects in economic history, though some preference will be given to papers that specifically fit the theme. Papers should be submitted individually, but authors may suggest to the Committee that three particular papers fit well together in a panel.

Papers should in all cases be works in progress rather than accepted or published work. Submitters should let the program committee know at the time of application if the paper they are proposing has already been submitted for publication. Individuals who presented or co-authored a paper given at the 2012 meeting are not eligible for inclusion in the 2013 program.

Papers and session proposals should be submitted online: http://www.eh.net/eha/meetings/submissions. The submission system will be available from October 15, 2012 onward. Paper proposals should include a 3–5 page précis and a 150-word abstract suitable for publication in the Journal of Economic History. Papers should be submitted by 31 January, 2013 to ensure consideration.

Graduate students are encouraged to attend the meeting. The Association offers subsides for travel, hotel, registration, and meals, including a special graduate student dinner. A poster session welcomes work from dissertations in progress. Applications for the poster session are due no later than 21 May 2013 online: https://www.eh.net/eha/node/add/posters. The poster submission system will open on March 1, 2013. The dissertation session convened by Ian Keay (Queen’s University) and Dan Bogart (UC Irvine) will honor six dissertations completed during the 2012–2013 academic year. The submission deadline is June 11, 2013. The Alexander Gerschenkron and Allan Nevins prizes will be awarded to the best dissertations on non-North American and North American topics respectively.

Announcing the launch of the ECONOMICS OF NATIONAL SECURITY ASSOCIATION (ENSA)

ENSA will be a forum to promote excellence in national security economic research. National security issues provide economists with challenges across the range of economic disciplines; a long history of economic research has contributed to areas varying from Cold War strategy to the all-volunteer military force. Please join us for a session devoted to these issues followed by a sign-up event.

Economics of National Security
January 5, 2013 8:00 a.m.
Manchester Grand Hyatt, Randle A & B

Presiding: Martin Feldstein (Harvard University and NBER)

Energy and National Security: Robert Topel (University of Chicago) and Kevin Murphy (University of Chicago)

Successful Development in Conflict Zones: Eli Berman (University of California-San Diego)

Rebel Group Organization and Finances: Evidence from Iraq: Jacob Shapiro (Princeton University)

Opium Income and Insurgent Activity in Afghanistan: Jeffrey Clemens (Stanford University and University of California-San Diego)

There will be a membership sign-up event immediately following the session in the Cunningham foyer. No membership fee will be charged for attendees who sign up during this event. Individuals unable to attend the sign-up event will be able to sign up on the ENSA website (ensa.us.com) beginning January 14. Benefits of membership include:

• Assistance with requesting national security and defense resource data for use in research.

• Networking opportunities with policymakers.

• Support in teaching of national security economics.
Econ-Harmony…
Significantly increases your chances of getting your paper on the ASSA program!

Did You Know… papers submitted individually achieve a 10–15% program acceptance rate, while papers submitted through complete sessions enjoy a 35–40% program acceptance rate!

Collaborate
Econ-Harmony is a collaboration service for organizing complete session proposals for the annual meeting. It is an opportunity to strengthen a paper’s potential for acceptance.

Build Your Team
It allows prospective individual paper submitters who are members of the AEA to post information about their paper and search for others with similar interests who want to form a complete session submission.

Strengthen Your Proposal
Econ-Harmony is a perfect opportunity to network and collaborate with others in your field or to locate individuals with interests and specialized skills to strengthen your session proposal.

Econ-Harmony for the 2014 conference will open in February 2013. Don’t Miss It! Put It on Your Calendar Today or Bookmark It!

Available for Adoption

**Essential Microeconomics**

**John G. Riley**, *University of California, Los Angeles*

712 pages, 229 illustrations, 17 tables, $125.00

“A great economist and teacher has produced a great book! *Essential Microeconomics* presents the main contributions and tools of economic theory in an extremely clear and engaging way….A great resource for economics students.”

– *Pedro Dal Bo, Brown University*

**Features**

- Focuses on the most basic and up-to-date ideas in microeconomics, rather than attempting to be encyclopedic
- Offers detailed introduction to models with asymmetric information, covering signaling, auctions and mechanism design
- Website offers complementary coverage to all chapters and appendices, a detailed calculus and algebra review, and an exploration of mathematical foundations

**A Short Course in Intermediate Microeconomics with Calculus**

**Roberto Serrano**, *Brown University*

**Allan M. Feldman**, *Brown University*

456 pages, 128 illustrations, 5 tables, $65.00

**Features**

- The only concise treatment of the main topics of microeconomic theory on the market, based on decades of teaching in the classroom
- Accessible, orderly approach to the topics, including introductory treatments of decision theory under uncertainty, game theory and introductory treatment of welfare economics
- Offers novel approach to the theory of the firm

Game Theory
Interactive Strategies in Economics and Management

Aviad Heifetz, Open University of Israel
Translated by Judith Yalon-Fortus

460 pages, 70 illustrations, $65.00

“This book fills a long-standing need for a first-rate textbook for an undergraduate course in game theory. It strikes an almost ideal balance between accessibility and rigor with a series of well-chosen examples to light the way...Anyone teaching an undergraduate game theory course should consider adopting Heifetz’s book as a text.”

–Bart Lipman, Boston University

An Introduction to International Economics
New Perspectives on the World Economy

Kenneth A. Reinert, George Mason University

502 pages, 117 illustrations, 51 tables, $99.00

“An Introduction to International Economics is a rarity among economics texts: It is both entertaining and informative, and both concise and comprehensive.”

–Robert Blecker, American University

Applied Intermediate Macroeconomics

Kevin D. Hoover, Duke University

ISBN: 9780521763882, November 2011
940 pages, 216 illustrations, 55 tables, $125.00

“...a wonderful blend of models and data, and manages to be both practical and meticulous.”

–Peter Hans Matthews, Middlebury College

Features
- Uses fundamental orientation to real-world facts as a starting point for understanding macroeconomics
- Offers a unique “Guide to Working with Economic Data,” covering elementary statistics and graphical techniques
- Offers rich treatments of financial markets (national and international) and monetary and fiscal policy
- Website: www.appliedmacroeconomics.com

www.cambridge.org/us
Available for Adoption

Sports Economics

ROGER D. BLAIR, University of Florida

554 pages, 53 illustrations, 53 tables, $125.00

Features
• Most comprehensive undergraduate textbook on sports economics in the marketplace
• Covers themes not explored in rival texts, such as misconduct, cheating, discrimination, and steroids
• Ancillary materials are available at www.sportseconomicsbyblair.com

“Roger Blair does a great job of applying microeconomic principles to the sports industry. This book will help students better understand both the sports world and economics because of its clear explanation of sophisticated concepts.”
—Jason Winfree, University of Michigan

Economic Development
5th Edition

E. WAYNE NAFZIGER, Kansas State University

856 pages, 79 b/w illustrations, 1 color illustration, 1 map, 47 tables, $115.00

“Economic Development is one of the few texts that draws on theory, history, policy, and institutional analysis to present a rich and insightful analysis of the complexity of the development process and why the goals of development continue to remain so elusive for so many.”
—Howard Stein, University of Michigan, Ann Arbor

Features
• Most comprehensive textbook on economic development on the market
• Excellent coverage of new themes: outsourcing, impacts of information technology, explanations for changing growth rates, effects of recent financial crises
• Accessible exposition, valuable student and instructor aids, 50% new figures and tables, and a rich historical and contemporary perspective

Congratulations to

William Kerr

recipient of the

2013 Ewing Marion Kauffman Prize Medal for
Distinguished Research in Entrepreneurship.

William Kerr is an Associate Professor at Harvard Business School. An expert in agglomeration and entrepreneurship, immigration, and innovation, Kerr researches immigrant scientists and technology commercialization, the interaction of government policy and firm entry and cluster formation, and entrepreneurial finance.

The Kauffman Prize Medal, which includes a $50,000 prize, is awarded annually to recognize scholars under the age of forty whose research has made a significant contribution to entrepreneurship.
Please join us at a reception for friends of the Kauffman Foundation and a presentation of awards honoring recipients of the:

- Ewing Marion Kauffman Prize Medal for Distinguished Research in Entrepreneurship
- Kauffman Junior Faculty Fellowship
- Kauffman Dissertation Fellowship

**Saturday, January 5, 2013**
**6 to 8 p.m.**
**Manchester A**
**Manchester Grand Hyatt**

Cocktails and hors d’oeuvres will be served.

The Ewing Marion Kauffman Foundation celebrates these scholars’ past work and looks forward to their future contributions to the body of literature in entrepreneurship.

The Annual Meeting of the American Finance Association will be held January 3–5, 2014 in Philadelphia, Pennsylvania. Papers presented at the Annual Meeting traditionally include both submitted papers and papers solicited by the session chairs. By doing so, the Directors of the Association encourage both the broadest possible participation and the highest quality meeting. I encourage you to submit your best paper for this meeting.

Submissions must be made by 5PM (EST) March 15, 2013, and will be made via the program website at SSRN, which is accessed from a link on the Annual Program page at www.afajof.org. In addition, if you have suggestions for special sessions, please use the suggestion function on the program website at SSRN or send me a note by mid-February. Authors of selected papers will be notified by May 15.

All submitted papers must be accompanied by an abstract of at least 200 words, but no more than 300 words. All papers must be submitted as PDF files. In creating your PDF files, please use the Distiller from Acrobat 4.05 or better and select Embed all fonts on the Distiller Settings/Job Options/Fonts menu.

Complete papers will be given preference, but extended abstracts of several pages may also be submitted. Abstracts should be copied and pasted into the SSRN submission form. Please include in your website submission the addresses and phone numbers for every author and fax numbers and email addresses for the contact author.

Please note: Submitted papers should not have been accepted for publication. At least one of the authors of a submitted paper must be an American Finance Association member in good standing. Papers that have been accepted for presentation at the Western Finance Association meetings will not be included on the AFA program. Multiple submissions by any author (whether joint or single-authored) will reduce the chance that any of their papers will be on the program. Finally, in the interests of wider participation, please do not submit the same paper to other associations that meet at the same time as the AFA.

The Association of Indian Economic and Financial Studies (AIEFS)

AIEFS is a non-profit academic organization founded in 1975 at Bloomsburg State University, Pennsylvania. Economists with an interest in India felt a need to develop an identity for those involved in scholarly research on Indian economic and financial issues, to give publicity to their research outcomes, and to educate the world at large about the realities of a changing India. The objectives of the AIEFS are to promote interest in the study of Indian economics and finance in their broadest sense, to encourage inquiry into and analysis of the problems and issues confronting the Indian economy, and to facilitate communication and discussion among scholars working towards these same objectives.

AIEFS sponsors sessions at the annual meetings of the Allied Social Science Association (ASSA), the Western Economic Association, and the Eastern Economic Association. In addition, it holds biennial meetings either in the United States or in India. The first biennial meeting was held in India in collaboration with the Research and Information System for Developing countries (RIS) in June 2011 in New Delhi. The 2013 biennial meeting will be held in collaboration with Indira Gandhi Institute of Development Research (IGIDR) in Mumbai.

AIEFS publishes a biannual Newsletter, typically in the Fall and in the Spring of each year. From time to time, the AIEFS also publishes edited books and/or proceedings of papers presented at the ASSA and in the aforementioned biennial meetings. In recent years, papers are published in special issues of peer reviewed journals.

The Committee on the Status of Minority Groups in the Economics Profession (CSMGEP) was established by the AEA in 1968 to increase the representation of historically underrepresented minorities in the economics profession, primarily by broadening opportunities for training. To further its mission, CSMGEP's activities currently include three important programs, each tailored to different stages of the educational pipeline, to which we encourage individuals to apply:

- The AEA Summer Training Program prepares talented undergraduates for doctoral programs in economics and related disciplines by offering an unique opportunity for students to gain technical skills in economics and conduct research with associated faculty. The Summer Training Program is currently hosted by the University of New Mexico Department of Economics and the RWJF Center for Health Policy.

- The Mentoring Program matches students accepted or enrolled in a Ph.D. program in economics with mentors. The Mentoring Program also hosts an annual Pipeline Conference held each year in conjunction with the AEA Summer Training Program to facilitate contact between students in different schools and at different stages in the pipeline.

- The AEA/NSF Summer Economics Fellows Program provides female and underrepresented minority senior graduate students and junior faculty an opportunity to spend a summer in residence at a sponsoring research institution, such as a Federal Reserve Bank or other public agency.

The National Association of Economic Educators (NAEE) is the professional association of economic educators.

The goals of the Association are:

- to provide a forum for communication, sharing best practices and research, and exchanging ideas among those involved in economic and financial education;
- to promote strong leadership, sound management and effective fund raising for economic education organizations;
- to advance objective, non-partisan, and academically strong economic education programs;
- to advocate for and improve the economic and financial education of teachers;
- to collaborate with the Council for Economic Education, affiliated state Councils and Centers, the Federal Reserve Banks, and other economics and financial literacy stake-holders, in mutually beneficial, reciprocal partnerships.

Association membership is open to everyone interested in teaching and economic education for a $50 annual membership fee. For more information, visit our website: www.naee.net or contact:
