

AEJApp-2011-0238.R1 - Development Effects of Electrification: Evidence from the Topographic Placement of Hydropower Plants in Brazil

Disclosure Statement: Tania Barham

This paper has received financial support from the University of Colorado NICHD Population Center, Corporacion Andina de Fomento, Center for Advancement in Research and Teaching in the Social Sciences at the University of Colorado, the National Science Foundation, and the Macmillan Center at Yale University. None of these funders reviewed results before this paper was submitted for publication.

Author Disclosure Statements

Tania Barham was a short-term consultant to The World Bank Middle East Region for work in the Yemen Girls Conditional Cash Transfer Program. Summer salary was paid for through grants from NIH, NSF, and 3ie, and some travel funds from the Inter-American Development Bank for research in Nicaragua and Bangladesh for studies that do not relate to the present study. They are long term follow-ups of a Conditional Cash Transfer Program in Nicaragua and a Maternal and Child Health and Family Planning Program in Bangladesh.
