

Disclosure statement by Erzo F.P. Luttmer for the submission "Social Support Substitution and the Earnings Rebound: Evidence from a Regression Discontinuity in Disability Insurance Reform"

I hereby declare that I have no relevant or material financial interests that relate to the research described in this paper. The research in this paper was not funded.

No IRB approval was sought because this project did not involve collecting individual-level data or experiments involving human subjects.

Statistics Netherlands has provided access to the data that was used in this project through a remote connection facility. Due to privacy considerations, these data cannot be disclosed to anyone else who has not signed the confidentiality agreement of Statistics Netherlands.

As part of the data agreement, Statistics Netherlands has the right to review the results of our project prior to their dissemination to ensure that the confidentiality of the data is not unintentionally compromised and individual specific information is not revealed.

Other than Statistics Netherlands, no other third party had the right to review the paper before circulation.

A handwritten signature in black ink, appearing to read 'E. Luttmer', with a long horizontal flourish extending to the right.
