TO WHOM IT MAY CONCERN

In the period 2002-2005, I've held positions in the regional and national organization of the same political party of the incumbent mayor who accepted our experimental design. This experience has been crucial to create mutual trust with the counterpart and implement the randomization of his entire electoral campaign with respect to mailers and phone calls. Apart from my past political experience, I hereby declare that I have no other relevant or financial interests that relate to the research described in the paper.

Sincerely yours,
