

Disclosure Statement

How Economists Allocate Time to Teaching and Research

For William B. Walstad

I have nothing to disclose about relevant interest from other parties about this study.

IRB approval was not sought for this study because we were using a secondary dataset collected the National Center for Education Statistics at the U.S. Department of Education. This organization has Federal policies and regulations about the proper use of this data. To use the restricted data set from NCES we had to be approved to receive a license from their security office and that office had to review our paper and approve the public dissemination of any data based on the dataset that was used in the paper.
