

## Disclosure statement by Quoc-Anh DO

The author Quoc-Anh DO declares that:

1. He has benefited broadly from financial support for research from the French government's National Research Agency's (ANR) "Investissements d'Avenir" grants ANR-11-LABX-0091 (LIEPP) and ANR-11-IDEX-0005-02, channeled via his institution, Sciences Po.
2. There is no interested party from whom he has received significant financial support, summing to at least \$10,000 in the past three years, in the form of consultant fees, retainers, grants and the like. An "interested" party is any individual, group, or organization that has a financial, ideological, or political stake related to the article.
3. He, his partner, and his close relatives have no relevant or material financial interests that relate to the research described in this paper.
4. He, his partner, and his close relatives do not hold any paid or unpaid positions as officer, director or board member of relevant non-profit or profit-making organizations.
5. There is no party that has the right to review this article before circulation.
