

March 14, 2018

To Whom It May Concern:

I have no interests or disclosures related to the research: "The Effect of Rent Control Expansion on Tenants, Landlords, and Inequality: Evidence from San Francisco."

Since we did not collect any data ourselves on human subjects, we did not go through the IRB. All data used is available for anyone to purchase or is publically available.

Sincerely,

Timothy McQuade
Assistant Professor of Finance
Stanford Graduate School of Business
