

The Propagation of Demand Shocks Through Housing Markets

Disclosure statement for Daniel Ringo

Daniel Ringo has no conflicts of interest to disclose. This project was not supported by any external source of funding. Prior to circulation, the paper was subject to internal review at the Federal Reserve Board to ensure no confidential supervisory information was traceable to identifiable individuals or institutions. In addition, an older version of this paper appeared in the Federal Reserve Board's working paper series and was therefore subject to review by the Board's Public Affairs Office. The paper did not undergo IRB review as the paper does not involve collection of new data on human subjects, and the Board does not have an IRB.
