

Title: Using Neural Networks to Predict Micro-Spatial Economic Growth

I have received funding for this project from the Russell Sage Foundation. This funding did not involve any clearance or direction of the results by the Foundation. Aside from this, I am partially funded through two grants from NSF DMS (2012266, 1819222) and a sponsored research grant through Intel Research. These did not provide direct funding for this research, and had no clearance or direction on the results of this paper.

A handwritten signature in black ink, appearing to read 'Alex Cloninger', with a long, sweeping horizontal stroke extending to the right.

Alexander Cloninger
