

CONSISTENT RESULTS

Posted by MARCOS VERA-HERNANDEZ

Posted on 2/1/2014 7:20 AM

Dear readers,

It is very interesting that the findings of this article are consistent with an article just published in The Lancet (January 2014), which collected data on 151,000 adults between 1999-2008 and follows them for cause-specific mortality until 2010.

Best Wishes,

Marcos Vera-Hernandez
