

**Disclosure Statement for
Informing Mothers about the Benefits of Conversing with Infants:
Experimental Evidence from Ghana**

Camille Falezan

I declare having no relevant or material financial interests that relate to the research described in this paper.

The research protocol was approved by the Ghana Health Service Ethical Review Committee and by the Stanford University IRB.

This research was supported by grants from the World Bank's Strategic Impact Evaluation Fund and Stanford University. It builds on pilot work made possible by funding from the Weiss Fund.
