Disclosure Statement for: Supply, Demand, Institutions, and Firms: A  
Theory of Labor Market Sorting and the Wage Distribution

To whom it may concern:

1. I have no relevant or material financial interests that relate to the research described in this paper.
2. I received financial support from UC Berkeley as a graduate student in the initial stages of this research, which is gratefully acknowledged. I also gratefully acknowledge financial support from the Becker Friedman Institute at the University of Chicago during the 2019-2020 academic year.
3. The project is conducted under a confidentiality agreement with the Brazilian Ministry of Labor, which does not include the right to review research results prior to release.

Sincerely,

Daniel Haanwinckel
