Disclosure Statement

Manuscript titled “Harnessing Deductions to Increase Tax Compliance and Formalization”

Albrecht Bohne declares that he has no relevant or material financial interests that relate to the research described in this paper.

This project was financed by a grant from the “Karin-Islinger Stiftung” at the University of Mannheim (€2,500 awarded jointly with Jan Sebastian Nimczik). Moreover, Albrecht Bohne acknowledges funding from the German Research Foundation for a research stay at the University of Michigan (Walter Benjamin Program grant BO 5782/1), during which a part of this work was carried out.

The study was not subject to review by an Institutional Review Board (IRB) because it used archival data provided by the Ecuadorian tax authority Servicio de Rentas Internas (SRI) in their facilities and under their data access guidelines. Importantly, the authors and the associated institutions did not engage in any interventions or interactions with the individuals under study.
