

**Can Electronic Procurement Improve Infrastructure Provision?
Evidence from Public Works in India and Indonesia**

Disclosure Statement for Sean Lewis-Faupel

This project received financial support from the International Growth Centre (IGC), based at the LSE and Oxford and supported by the UK DfID.

I have received research support for work on a number of projects generally related to human capital from the grant T32 HD007014, awarded to the Center for Demography and Ecology at the University of Wisconsin--Madison by the Eunice Kennedy Shriver National Institute of Child Health & Human Development. This funding did not support any work on this paper.
