

Copenhagen, 5 March 2017

Subject: Disclosure Statement

I herewith declare that I have no relevant or material financial interests that relate to the research described in the paper "The Price of Prejudice," with Jean-Robert Tyran.

In this paper, we report data of a field experiment with human subjects conducted at the premises of the University of Copenhagen. An IRB approval was not obtained because my institution at that time – Department of Economics of the University of Copenhagen - did not require submitting projects in experimental economics to the internal review.

The project was funded by the Rockwool Foundation which has as objective to "support scientific, humanitarian, artistic, and/or social activities, and to contribute to improving environmental conditions and development in society" (<http://www.rockwoolfonden.dk/en/>).

Over the last 3 years, I have not worked in academia but in the private industry, doing work unrelated to the research described in the above-mentioned paper.

Best wishes,

Morten Størling Hedegaard
