12 September 2017

I declare that I have no relevant or material financial interests that relate to the research described in the paper "Academic Peer Effects with Different Group Assignment Policies: Residential Tracking versus Random Assignment."

I received financial support from the University of Michigan's Gerald R. Ford School of Public Policy and Horace H. Rackham School of Graduate Studies.

The data used in this paper are owned by the University of Cape Town. The university did not require pre-publication clearance or approval of the results of my analysis, but all results have been shared with relevant staff there.

This project was reviewed by the University of Michigan's Institutional Review Board [HUM00030455] and assigned a "not regulated" status because no identifiable data were used in the research.

A handwritten signature in blue ink, appearing to read "R. Garlick", on a light blue background.

Robert Garlick
Assistant Professor
Department of Economics
Duke University
