Global Dialogues

These virtual debates transcend borders, bringing together diverse perspectives on critical global issues.

The Power of Debate

Each debate features a PRO and AGAINST team. Teams consist of 2 students from Belmont University and 2 from the Amsterdam School of International Business, allowing students to explore diverse viewpoints and develop effective communication skills.

Cross-Cultural Understanding

Debating on topics like sanctions and immigration fosters appreciation for diverse views and constructive disagreement. Students also build essential global citizenship skills through teamwork and cross-cultural communication.

Empowering Tomorrow's Leaders

The International Debate Series goes beyond sharpening argumentation and research skills. It fosters open-mindedness, empathy, and dialogue commitment, equipping participants to tackle global issues and promote peace worldwide.

Student quote

"I highly recommend this project for other students. It is probably life-changing, especially for others who have not received the opportunity to travel abroad."

Student quote

"I learned that I love getting to know people. As much as I love learning new topics, connecting with different people on the other side of the world was a super cool experience."

Student quote

"I learned how much I have in common with students across the Atlantic. They say that you have more in common with people your age from other countries than you do with your own parents."
