

# Data for purposes of replication

## The Effect of Terrorism on Employment and Consumer Sentiment

Abel Brodeur

This document provides a description of the purpose of each data set and program to replicate Tables in “The Effect of Terrorism on Employment and Consumer Sentiment,” and its online Appendix. Programs are written in **Stata**, and data sets are compatible with Stata 14.

### Data folder

The **Data** folder contains 13 final data sets, one intermediate data set and three additional data sets to produce the housing prices, television (Vanderbilt) and consumer confidence results. The 13 final data sets and the intermediate data set in the root folder are:

- **Final Sample1\*.dta**, in which units are county/year and which is used to produce Tables 1, 2, 3 and 4 in the paper,
- **Final Sample2.dta**, in which units are county/year and which is used to produce Table 5 and Figures 3, 4, 5, 6 and 7 of the paper and Appendix Tables A2 and A3 and Appendix Figure A4 of the online Appendix,
- **Final Sample3.dta**, in which units are county/year and which is used to produce Tables 6, 7, 8, 9 in the paper and Appendix Tables A3, A5, A6, A8, A9, A10, A11, A12, A13, A14, A17, A18 of the online Appendix,
- **Final Sample4.dta**, in which units are county/year and which is used to produce Appendix Table A4 of the online Appendix.
- **Final Sample5\*.dta**, in which units are county/year and which is used to produce Appendix Table A7 of the online Appendix.
- **Final Sample6.dta**, in which units are county/year and which is used to produce Appendix Table A16 of the online Appendix.
- **Intermediate Sample1.dta**, in which units are county/year and which is used to produce Table 10 in the paper.

The **Out** folder is empty but may contain the output of the do files.

### Do folder

The **Do** folder contains four do-files:

- **Dofile1.do** is the code that reproduces Tables 1, 2, 3 and 4 in the paper,

- `Dofile2.do` is the code that reproduces Table 5 and Figures 3, 4, 5, 6 and 7 of the paper and Appendix Tables A2 and A3 and Appendix Figure A4 of the online Appendix,
- `Dofile3.do` is the code that reproduces Tables 6, 7, 8, 9 in the paper and Appendix Tables A3, A5, A6, A8, A9, A10, A11, A12, A13, A14, A17, A18 of the online Appendix,
- `Dofile4.do` is the code that reproduces Appendix Table A4 of the online Appendix.
- `Dofile5.do` is the code that reproduces Appendix Table A7 of the online Appendix.
- `Dofile6.do` is the code that reproduces Appendix Table A16 of the online Appendix.
- `Dofile7.do` is the code that reproduces Table 10 in the paper.

Only the first few lines of these do-files should be modified in order to specify the Stata working directory.
