

Can Nudges Increase Take-Up of the EITC? Evidence from Multiple Field Experiments

Disclosure Statement

Author: Jesse Rothstein

I declare that I have no relevant or material financial interests that relate to the research described in this paper.

The data that support the findings of this study are available from the California Franchise Tax Board (FTB) and the California Department of Social Services (CDSS). Authors used these data pursuant to a Data Use Agreement for the current study. These DUAs provide the California Franchise Tax Board and the California Department of Social Services the right to review this article prior to publication to ensure that no released results permit direct or indirect identification of any individual in the data.

We have obtained Institutional Review Board (IRB) approval for these studies from the State of California Office of Statewide Health Planning and Development (OSHPD) Committee for the Protection of Human Subjects (CPHS).
