Statement:

I declare that I have no relevant or material financial interests that relate to the research described in this paper. Please note that section 3 of this paper (which discusses a field experiment) contains data collected from the Australian Red Cross Blood Service. The Blood Service provided in-kind support to use their call centre and to provide data. They have requested to review the paper to ensure that the confidentiality of the data was not unintentionally compromised. The Blood Service has read the submitted manuscript and has given permission without any changes. I have also received an Australian Research Council Discovery Grant (#1095222) that was used in part to complete this research.
